Kisol Pools is a company that manufactures fiberglass swimming pools, maintaining a commitment to excellence in all aspects of our product line. Kisol Pools innovates every day with new models of pools, to help you choose the ideal model for your family and your lifestyle.

### Factory

Located in the Northwest region of São Paulo with a network of roads that gives access to the largest. Brazilian capitals, our 22,500 m<sup>2</sup> and more than 12,000 m<sup>2</sup> of built area. Making Kisol Pools one of the largest manufactures in the world.

## Production

In the production process, we use certified raw materials from reputable suppliers in the fiberglass segment and use state-of-the-art equipment that provides greater agility and economy with minimal waste and that is in compliance with environmental

## Booth Painting

The booth painting was manufactured within the standards required by environmental agencies with filters to retain impurities, moisture and everything else that may influence the quality and finish of the internal paint of the pool (gel-coat).

## Chemical Barrier

All pools are manufactured with a chemical barrier.

This process aims to increase the useful life of the pool's internal paint (gel-coat), leaving the inside always smooth, uniform and brighter.

The aesthetics of the pool is fundamental and the internal color is one of the items that stands out in the leisure area.

## Demolding and Loading

The demolding and loading process is fully mechanized, which provides greater speed and agility, eliminating manual labor.

## Storage

After being demoulded, the products undergo a thorough inspection and after being released, the pools are stored and wrapped in bubble wrap, which guarantees a better appearance and beauty until their final

## THE LINE

Kisol Elegance Design brings a differentiated concept in two main aspects: versatility and technology.

This line brings the client to the realization of their project without any limitations. Any model you can imagine, we can create.

Through a wide range of options in finishes, formats, measurements, and accessories, it offers endless possibilities to our customers who seek exclusivity and convenience, with its full ceramic coating and the option of finishing with glass inserts.

Without any pattern mold, Kisol Elegance Design allows the customer, architect, or

engineer to build the ideal pool for their project. Total freedom to apply beaches, glass walls, infinity edges, waterfalls, stairs, LEDs, and hydromassage nozzles.

The shells are built with polyester resin and fiberglass reinforced plastic (PRFV) with a 100% watertight guarantee and sophisticated coating in the best finishes.
